1	2	3	4	5
Acetone (soluble in water in all proportions).	Accepted from the United Kingdom and America in packages certified as recognised in the rules of those countries.	The chief danger to be apprehended is from leakage, as the vapour of these goods is heavier than air and is inflammable. The vapour is also explosive when mixed with certain proportions of air in a confined space. Waggons containing these inflammable liquids should not be placed next to the engine, but should be separated therefrom by at least three waggons not loaded with explosives or other traffic of an inflammable nature. The words "highly inflammable" must be distinctly marked on each package by the sender. Drums or receptacles in a damaged condition must not be accepted and the staff must always ascertain that the screw plugs or caps of empty drums or receptacles are securely fastened.	See entries in cols. 4 and 5 on page 4 against "Benzine or Benzole," etc.	

Page 6.—Insert the following after the item "Spirit Varnish":—

1	2	3	4	5
Wood Naphtha or Wood Spirit. Spirit, Methylated Spirit of Wine ...	Must be packed in stoneware jars or glass stoppered bottles or in vessels of tin or copper provided with screw stoppers or corked with caps covering their mouths, soldered on. Must be packed in corked and capsuled bottles or in hermetically sealed drums. When bottles are used they must be packed in straw or sawdust in wooden cases. Must be packed either in corked and capsuled bottles or in corked and capped drums securely packed or in strongly made casks securely closed so as to prevent all possibility of leakage.	The words "highly inflammable" distinctly marked on each package by the sender.	Other commodities which are not explosives and not dangerous goods may be loaded in the same vehicle with Spirit, Methylated, provided that they are well separated from it.	

Page 7.—In column 5 against the item "Kerosine or Paraffin oil, non-dangerous" *insert the following*:—

For such time as, owing to the war, the present difficulty of obtaining materials from England lasts "kerosine oil, non-dangerous" may be carried in any quantity by mixed trains even when goods trains are running.

For such time as, owing to the war, the present difficulty of obtaining materials from England lasts, one tank waggon or one waggon containing "kerosine oil, non-dangerous" in tins may be attached to the rear breakvan of passenger trains. Except the tail lamp no other lights must be allowed near the waggon and this rule must be strictly observed.

Page 8.—Delete the items "Wood Naphtha or Wood Spirit," "Spirit Methylated," and "Spirit of Wine" *in column 1, and the rules relating thereto in column 2.*

Insert the following in column 4 against the items "Oil of Turpentine, Spirits of Turpentine, Terebine or Sundryers, Turpentine Substitutes and Varnish," *bracketted together in column 2*:

Other commodities, which are not explosives and not dangerous goods, may be loaded in the same vehicle with these liquids, provided that they are well separated from them.

Page 9.—In column 2, omit the words "with sloping covers" *occurring*
in line 3 against "Acid, Flouric, etc."
" 4 " "Acid, Hydrochloric, etc." *and* "Acid, Acetic, etc."
in lines 3 and 4 against "Ammonia in solution."
in line 4 of clause (i) against "Acid, Sulphuric, etc."

Add (a) after the entries in column (5) against the following items—

"Acid, Hydrochloric or Muriatic or Spirit of Salts," and "Acid, Nitric or Aquafortis."

"Acid, Acetic." to "Phosphorus." (bracketted) and

"Acid, Sulphuric or Oil of Vitriol or Vitriol."

and insert the following at foot of the page.

(*a*) In the case of Government consignments more than one case may be so carried, provided that the gross weight of the cases does not exceed two maunds.

Insert the following note below the entry in column 2 against items "Acid, Hydrochloric or Muriatic or Spirit of Salts," and "Acid, Nitric or Aquafortis."

NOTE.—Hydrochloric Acid in glass carboys of not more than 12 gallon capacity may however be packed in wooden crates or wicker work hampers as a temporary measure during the period of the war.

In column 2, after the first sentence of clause (ii) ending with "wood shavings, etc.," against "Acid, Sulphuric, etc." *add the following*:—

May also be carried in earthenware jars or carboys of less than 12 gallon capacity, firmly packed in straw in wooden racks fixed in the waggons.

In column 2 insert the following note below clause (ii) against items "Acid, Sulphuric or Oil of Vitriol, or Vitriol."
